I have a bachelor's degree in business English of Beijing Foreign Studies University and obtained an advanced certificate in German language in Germany. I worked over 10s years for international companies and government projects.

From 2008 to 2014, I worked closely with the EU delegation in Beijing and EU Chamber of Commerce on event management and Public Relations. I joined one of the biggest PR companies in Beijing. I was mainly responsible for maintaining relations between internal teams and revenue control. In 2018, I moved to Germany. I achieved an advanced certificate of German Language and later on I joined LUQEL Deutschland GmbH, a new start-up company that is aiming to deliver the healthiest water to the world. I was one year in Marketing department to conduct marketing research for digital products in China. In the second year, I successfully set our digital team in China with 7 employees and appointed as General Manager in Luqel Shanghai office, further in charge of whole business operations.

As I have always been in international enterprises, I have built up very strong capacities in communication and operational organization.

I have a German-Chinese family, therefore I am strong in coping with different culture shock.
